

TOGETHER CREATING PURE OIL, GAS AND WATER

PRESS RELEASE  
FOR IMMEDIATE DISTRIBUTION

## ProSep's Desalting Technology Receives Industry Recognition

- Compact ProSalt technology receives 2009 Spotlight on New Technology Award -

**MONTREAL, QUEBEC – March 19, 2009** - ProSep Inc. (TSX: PRP), dedicated to providing process solutions to the oil and gas industry, announced today it was awarded the Offshore Technology Conference (OTC) "2009 Spotlight on New Technology Award" recognizing innovative technologies significantly impacting offshore exploration and production. The awards will be presented May 4, 2009 at the conference which will be held May 4-7 at Reliant Park in Houston, Texas.

"Exploration and production environments are becoming increasingly challenging. Developing efficient and compact technologies is key to addressing growing industry needs," said Jacques L. Drouin, President and CEO of ProSep Inc. "The OTC award validates how our proprietary technologies, such as ProSalt, allow our clients to increase their production capacity while achieving economic and environmental objectives."

ProSalt is a compact fresh water-crude conditioning system for crude desalting based on the Company's proprietary mixing technologies. Its effectiveness and reliability has attracted customers in several locations like Norway and Mexico, and more recently at Saudi Aramco's Shegdam 4 Gas-Oil Separation Plant. The technology demonstrated its ability to reduce consumption of wash water and chemicals while maintaining crude specifications compared to conventional mixing valves.

### About OTC's Spotlight on New Technology Program

The Spotlight on New Technology program gives exhibitors an opportunity to showcase their latest and most advanced hardware and software technologies to the attendees at OTC, the world's largest event on the development of offshore resources. Winning technologies must be less than two years old, original, groundbreaking, and capable of revolutionizing the offshore E&P industry proven through full-scale application or successful prototype testing; have broad appeal for the industry; and provide significant benefits beyond existing technologies.

### About ProSep Inc.

ProSep Inc. is dedicated to providing process solutions to the oil and gas industry. ProSep designs, develops, manufactures and commercializes technologies to separate oil, water and gas generated by oil and gas production.
